

e-Learning

At The Edcomm Group we have set the standard for e-Learning training solutions by combining rich content with engaging instructional design that motivates and challenges employees to excel. We can help you achieve your bottom-line goals, providing your employees the training they need to stay ahead of the curve. With this cost effective delivery method, your organization will decrease material costs, increase productivity and standardization, and support and encourage employee development.

Deliver

In today's fast-paced, global community, one tenet of business still rings true: your employees are your greatest asset. Ensuring that your employees have the necessary skills, tools, and knowledge to perform their job through effective training and development is critical to the growth of your business. Maximize your intellectual capital and human resources with The Edcomm Group's e-Learning solutions

All of The Edcomm Group's e-Learning solutions include an industry-leading Learning Management System (LMS) that provides a robust platform, a wizard-like authoring tool, and vast scalability.

Our tailored curriculum options cover many topics, within four core categories:

Our goal is to provide training solutions that combine rich content with instructional design, in order to promote self-facilitated learning that excites and enriches individuals. In this way, your employees feel engaged—and therefore more likely to embrace new skills and concepts, educate others, and seek out their own answers when exposed to new problems.

The Edcomm Group's e-Learning solutions feature:

- Over 36,000 unique e-Learning students served per month
- Global server capacity
- Multilingual materials
- Flash/HTML capabilities
- Load balancing for optimal performance
- SSAE-16 compliance to provide auditing standards reporting and third-party assurance
- Ongoing penetration testing
- Industry-leading LMS
- Easy tracking and reporting
